

# ECW FLIP KIOSK

## Versatile countertop kiosk.

The most adaptable and flexible kiosk solution for your practice. This kiosk is ideal for environments where patients are walking up to a counter space for the check-in process. Simply tilt the iPad back and forth to allow for staff behind the desk to assist with patients.

### Adjustable Screen Angle

Tilt your screen to whatever angle you desire for optimal user experience.

### DocuVue Arm Attachment

Line photo ID's with the iPad's rear camera to streamline the check in process.

### Advanced Wire Management

Keep wires out of sight with advanced wire management.

### Support for Payment Devices

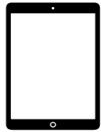

Integrate your 3rd party devices for seamless and accurate customer transactions.
