

Waystar + eSolutions for eClinicalWorks

# Stronger together: Propelling growth through partnership

With the addition of eSolutions' advanced Medicare capabilities, Waystar is the first to unite market-leading commercial, government and patient payment capabilities onto a single platform, ensuring providers get paid fuller, faster and more efficiently. We're committed to staying on the cutting edge of RCM product development for eClinicalWorks as well as our direct clients. We'll keep the lines of communication and support open and transparent. **Let's find out what we can accomplish together.**

Alerts

Advanced  
Alerts

Automated  
Appeals

“Together, Waystar and eClinicalWorks refined the way we perform eligibility verification. We now schedule batch verification to run automatically one or two days in advance of patient visits. For walk-ins, we’re able to click on the patient’s name in eClinicalWorks and launch Waystar’s eligibility tool, verifying insurance in real-time as the patient checks in.”

Cathy Matthews, EMR implementation lead, Rockford Orthopedics
